

ANIMALS

Live animals are not allowed on property except those in compliance with the Americans with Disabilities Act. Permission for any domesticated animal (cats, dogs, etc.) to appear in a show or booth must first be approved by PPAI Show Management and then by the Convention Services Manager. Additional insurance may be required. Non-domesticated animals will be considered on an individual basis. Call the Convention Services Manager for further details.

CLEANING

Use of confetti, balloons, glitter, or other similar materials will incur an additional minimum clean up charge of \$400 per occurrence.

BANNERS/SIGNAGE

You may not tape, tack, or affix signage in any way to MBCC walls or any part of MBCC or furnishings. Signage is not permitted in the casino, hotel lobbies, any elevator bank, or the exterior of any building, or guest hallways. MBCC bears no responsibility for your signage/banners/posters left in the convention center or any other area of Mandalay Bay; either prior to, during or after an event.

BALLOONS

Smaller air (non-helium) filled balloons may be used for decoration and/or handouts. Large helium-filled balloons, such as advertising balloons, may be used only if they are securely anchored to the exhibit. No helium balloons or blimps may be flown around the exhibit hall. Helium gas cylinders for refilling must be secured in an upright position on safety stands with the regulators and gauges protected from damage. Overnight storage of helium or compressed air cylinders in the building is prohibited. Balloons must be removed from the property by the company who provided them and not left for the Service Contractor, cleaning contractor or MBCC. A charge will be assessed if balloon removal is required. Balloons cannot be released out of doors due to airport flight patterns in the area. Other Clark County requirements may apply.

Note: Helium or lighter than air balloons made out of mylar regardless of size, are prohibited.

HALOGEN LIGHTING

This policy covers only certain restrictions on stem mounted halogen lighting installed by display contractors and exhibitors for the temporary lighting of exhibit booths. Stem mounted fixtures employ an arm that extends outward from the mounting mechanism, and which is typically terminated in a light head that pivots, swivels, or is otherwise movable. The use of any stem mounted halogen or other fixtures employing either a linear quartz bulb or a non-shielded halogen bulb is not allowed. Halogen bulbs, or lighting fixtures containing halogen bulbs, that are being displayed or demonstrated as part of an exhibiting company's product line or business in its booth, and any theater, stage, or studio lighting equipment utilizing halogen bulbs, are not covered by this policy. In addition, conventional track lighting systems that use any of the approved types of halogen bulbs and that are securely mounted to stable exhibit structures will continue to be allowed. Unless otherwise stated in this policy, stem mounted halogen light fixtures installed in MBCC facilities must: 1.) Have an additional glass shield that is integral with the bulb design and requires no other shield as part of the light fixture. 2.) Utilize a bulb not exceeding the listed wattage permitted for use by the fixture manufacturer, up to a maximum of 75 watts.
